

Adoption Acceleration & Training: Cisco Collaboration Endpoints

"We could not have helped our customer achieve this level of adoption this quickly if we had not engaged the team at Meet Me In The Cloud."

WebEx Next Generation Meetings

Cisco Next Generation Meetings deliver flexible interoperable solutions blending Cisco WebEx, Cisco Spark and various collaboration endpoints. This seamless experience ensures that no matter where you are or how you join a meeting the virtual collaboration experience is easy, consistent and dependable.

Meet Me In The Cloud's collaboration experts build adoption and training solutions incorporating Cisco WebEx and Cisco Spark with a variety of video endpoints. We enable users to focus on the content and allow the technology to enhance the experience.

Meet Me In The Cloud delivers training for collaboration endpoints including web, mobile, desktop and rooms:

- Cisco WebEx Meeting Center and the benefits of CMR
- Cisco Spark calling, messaging and meeting, including Spark Boards and Spark Room Kits.
- Collaborative SX, DX, MX video endpoints and OBTP

The experts at Meet Me In The Cloud will identify your organization's use case to customize content for your specific needs. Custom content development is available for more comprehensive custom training requirements.

- Desktop – DX Series
- Cisco Spark Board
- Cisco Spark Room Kit
- Cisco TelePresence MX and SX
